Scrum Meeting Transcript

Sprint No. 2
July 30, 2013

The aim for today's meeting is the member's progress of their individual task. We also fix our each software code to be synchronized for minimal errors. The meeting is between 3:00 to 4:30 PM, around 3:10 to 3:25 PM (15 mins.).

Below this shows the questions asked in the meeting and its corresponding answers.

1. What did you do yesterday?
Cabahug: Debugging errors & started my new task.
Comeda: Uninstall and reinstall postgres and changing its password for it to be uniformed with my teammates for it to be consistent all throughout.
Daganga: Fixing errors & started the new task.
Villarias: Update Github repository & started the new task.

2. What do you plan on doing tomorrow?
Cabahug: Continue working on my new task.
Comeda: To finish my task, resolve all dependencies.
Daganga: Update BuildConfig & UI.
Villarias: Doing my second task.

3. What prevents you from making progress?
Cabahug: Software project has still some errors & Internet connection.
Comeda: Error in Internet connection. "Server access error: Connection timed out", cannot install plug ins.
Daganga: Software project has some errors
Villarias: Software project has some errors.

End of Meeting.
